FILED/ACCEPTED

SEP 23 2009

Federal Communications Commission  
Office of the Secretary

RE: KCCM (FM), Moorhead, MN 90.3 MHz  
Facility Identification Number: 42926  
Notification of Modification to Digital Operation

Dear Ms. Dortch:

On November 28, 2006, Minnesota Public Radio ("MPR"), licensee of KCCM (FM), notified the Commission of the commencement of digital broadcasting on the above station using iBiquity Digital Corporation's HD Radio™ technology (copy of Notice of Digital Operations attached.) Since then there has been a minor change to the operating parameters of MPR's digital operations.

MPR recently replace the KCCM antenna, thereby lowering the transmitter output power of both the analog and digital power of the station. MPR applied for and received a new license granted September 16, 2009 (BMLED – 20090903ACC) with regard to the new antenna.

All conditions set for in the November 28, 2006 Notice of Digital Operations remain accurate, except for the TPO. KCCM continues to use a high level combined system. The Analog TPO is now 26 Kilowatts and the Digital TPO is now 2.2 Kilowatts.

Any questions concerning this notification should be directed to Mitzi T Gramling at (651) 290-1259, [mgramling@mpr.org](mailto:mgramling@mpr.org) or at 480 Cedar Street, Saint Paul, MN 55101.

Sincerely,

Thomas J Kigin  
Executive Vice President

Facility Identification Number: 42926  
Notification of Digital Operation

Dear Ms. Dortch:

Minnesota Public Radio ("MPR") hereby notifies the Commission of the commencement of digital broadcasting on the above station using iBiquity Digital Corporation's HD Radio™ technology. Consistent with the Commission's recent Order on interim digital operations<sup>1</sup>, MPR hereby supplies the following information in support of this notification.

1. Date. MPR commenced digital broadcasts on KCCM on November 21, 2006.
2. Certification of Facilities. MPR hereby certifies its facilities conform to the iBiquity Digital Corporation hybrid specifications.
3. Technical Reference. In the event of interference, questions should be directed to MPR's technical representative:

Name: Michael Hendrickson (primary contact)  
Doug Thompson (secondary contact)  
Phone number: 651-290-1500

4. Transmitter Output Power.  
KCCM will utilize a high level combined system.  
Analog: 27 Kilowatts  
Digital: 2.4 Kilowatts

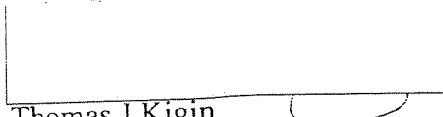

<sup>1</sup> *Digital Audio Broadcasting Systems and Their Impact on the Terrestrial Radio Broadcast Service*, MM Docket No. 99-325, First Report and Order (October 11, 2002).

Marlene H Dortch

5. Certification of ERP. MPR hereby certifies its analog effective radiated power will remain as authorized after commencement of digital operations.
6. Radiation Exposure Certification. MPR hereby certifies that its interim digital operations will not cause human exposure to levels of radio frequency radiation in excess of Section 1.1310 of the Commission's rules and is therefore categorically excluded from environmental processing pursuant to Section 1.13-6A(b).

Any questions concerning this notification should be directed to Mitzi T Gramling at (651) 290-1259, [mgramling@mpr.org](mailto:mgramling@mpr.org) or at 480 Cedar Street, Saint Paul, MN 55101.

Sincerely,

Thomas J Kigin  
Executive Vice President
