Re: MINNESOTA PUBLIC RADIO

Your application is in a dismissal status effective 04/09/2015 without prejudice in accordance with Section 1.934 of the Commission's Rules for the reason(s) indicated below. If you still wish to be licensed, you must file a new application, fee, FCC Form 159 for feeable applications, and all required showings. If you currently hold a valid license, you may continue to operate under the parameters of that authorization.

If you are currently operating under authority provided by the Commission's Rules based on your submission of the above referenced application, you must immediately cease operation until such time as you come into compliance with the Rules.

Certain services are subject to mandatory electronic filing pursuant to Section 1.913. For all other services, you may file your application either electronically or manually, but not both. Electronic filing is recommended for the few radio services where manual filing is permitted. For information on how to file an application electronically, visit the website at <http://wireless.fcc.gov/uls>. If you wish to file your application manually, application forms can be obtained from the FCC's website at <http://www.fcc.gov/formpage.html>, by calling the FCC's Forms Distribution Center 800-418-FORM (800-418-3676), or from FCC's Fax Information System by dialing (202) 418-0177. For additional assistance, you may visit the website at <http://esupport.fcc.gov>. You may also call the FCC at (877) 480-3201 (TTY 717-338-2824). To provide quality service and ensure security, all telephone calls are recorded.

Pursuant to Section 101.103(d) of the Commission's rules proposed frequency usage must be prior coordinated with existing licensees and applicants prior to filing an application for a new station, major modification, or major amendment. (Any change in emission type is classified as major per Section 1.929 of the Commission's rules.) In addition, pursuant to Section 101.103(d) applications are required to include a certification that frequency coordination has been completed and are required to providelist of the entities with which frequency coordination was accomplished. Your application has not been coordinated in accordance with Section 101.103(d). Therefore, pursuant to Section 1.934(d) of the Commission's rules your application is incompletand is defective. In light of the above your application is defective and is dismissed in accordance with Section 1.934(d)(2) of the Commission's Rules. You may re-file your application after prior coordination, including the response period, hasbeen completed.
