Re: WSCN (FM), Cloquet, MN
Minnesota Public Radio
Facility Identification Number: 42975
Special Temporary Authority (STA)
BXLED-20161018AAI

Dear Licensee:

This is reference to the license application filed October 18, 2016 to cover the auxiliary facilities covered by construction permit BXPED-20140318ACM. That construction permit contained a condition requiring the submission of radiofrequency exposure level measurements with the license application, before program test authority would be authorized. However, the license application contains no such exhibit or any discussion of the subject. We request the filing of an amendment to the license application to provide the results of radiofrequency exposure measurements. Until we have reviewed it and established that the operation falls within the Commission's RF safety guidelines, WSCN is not authorized to operate this auxiliary facility.

Sincerely,

Dale Bickel
Senior Engineer
Audio Division
Media Bureau
